

I am Nico West

Hi there, I am Nico West, and I have been working with Pam Golding Properties since 2011. I specialise in residential Real Estate property sales in Centurion, Gauteng.

Born and bred in Pretoria myself, I come with 20 years' experience in the corporate environment with a banking career. There was no hiding my passion for property investments. Becoming a Real Estate agent has always been a long-term goal of mine, and can proudly say it has been a great achievement!

When you meet me for the first time, your first impressions might be that I am reserved, conservative and old-fashioned. Although that may be the case, if one gets to know me one will find that I am just an ordinary guy who loves a glass of good red wine, or port, and a braai in true South African spirit.

My values of life have been built in me from an early age, I ensure loyalty and integrity by being true to my word. This flows through in my relationships I build with each and every client. I am an old-school charmer

by heart, I love old world characteristics and style, with a specific desire for a country lifestyle.

I am an animal lover with my wet-nose of choice being a dachshund. I would say I am a nature lover and feel right at home in nature's wild. On my bucket list you will find that I would like to still travel the world to visit places of religion, war-history as well as breath-taking architecture.

Get in touch and let's discuss how I can help you with your property requirements.

"My wife and I wish to express our total satisfaction with the exemplary and highly professional manner in which Mr Nico West has managed the sale of our property in which we have lived since 1972. Through Mr West, Pam Golding has provided us with a service of which it can justifiably be proud."
