

I am Nili Dodhia

I am Muthaiga and Greater Kitisuru

I am the peaceful walking trails of Karura Forest.
I am the lunch-time tee-off at the Muthaiga golf club.
I am the enthusiastic chatter at the corner coffee shop.
I am candle-lit dinners at your local Italian restaurant.
I am the gorgeous dam in the middle of Nyari.

I am Muthaiga and Greater Kitisuru agent, Nili Dodhia.

Jambo, my name is Nili Dodhia and I've been working with Pam Golding Properties since November 2011. I specialise in sales in Spring Valley, Kitisuru, New Muthaiga, Nyari and Gigiri. In my spare time I enjoy travelling, yoga, diving and generally being outdoors doing anything that will get my adrenaline pumping. Get in touch and let's discuss how I can help you with your property requirements.

I was born and brought up in Kenya and went to a British School throughout my primary and secondary education. I then continued my education in a University in Nottingham where I studied International Relations and Languages, which then gave me the opportunity to live in France for a year during my degree.

While studying at University I continued to work in different fields such as fashion, the restaurant industry and interned at small Law firms in London during the holidays. I then went on to study Law and started working at a Law firm in London as a legal secretary.

I moved back to Kenya and began interning in the Intellectual Property department at a corporate Law firm for a few months. The Kenyan economy was changing and there was a lot of foreign investment coming into the country, and this meant the property market was also becoming. I decided to join Pam Golding in 2011 and have not looked back since.

I am in a sales partnership with Sansi Dietz and together we have sold over two billion Shillings worth of property in the last four years. Together we have attended numerous training programs for real estate and learnt several selling skills over the years. Learning the tricks of the trade has taught me a lot and has given me valuable experience in developing myself as a person.

Sansi and I have been with Pam Golding for four years, made Nationals two years in a row and achieved Gold Club status for 2015 and 2016. Working in real estate has been really fulfilling as we are selling someone's most prized possession. I love what I do because of all the people we meet from different walks of life. I thoroughly enjoy networking and connecting people.

Apart from selling property, I have always enjoyed playing sport and still continue to play squash and swim on a regular basis. Painting is another passion of mine and has led me to appreciate African art and support upcoming Kenyan artists. I absolutely adore being outdoors and being in touch with nature. Yoga is a big part of my life and has helped me become a calmer and patient person. I love to travel and discover different cultures and people. The most peaceful place for me is underwater, and therefore I love to dive in different parts of the world. I also enjoy running and have done that Lewa Marathon twice.

"I loved working with Sansi and Nili. They are trusted, reliable and give you a full service. They are extremely knowledgeable and they help you feel at ease in what would otherwise be quiet and stressful experience."
