

I am Ewart Maree

I am KZN Zululand

I am the escape from the city to spectacular wetlands.
I am the peace and quiet on an early game drive.
I am the warm ocean water on a summer's day.
I am the birdwatchers paradise, home to aquatic birds.
I am the rich history and biodiversity of the iSimangaliso Wetland Park.

I am KZN Zululand Agent, Ewart Maree.

Hi, I'm Ewart Maree and I've been working with Pam Golding Properties since 2013. I specialise in commercial, industrial, farms and lodges sales in the greater Zululand area. Born and schooled in Zululand, my knowledge and understanding of my farming area has proven to be a great asset to all my clients, supplying them with the best possible advice for all their property needs. Friends and colleagues don't call me the "White Zulu" for nothing! I have thirty three years of financial, facilities management, corporate secretarial/legal management and project management experience in a leading international resources company followed by five years of owning and managing my own management consultancy business. During this time I have gained business experience in South Africa, Mozambique, France and Canada.

Under the exceptional leadership and study support of Pam Golding Properties, I have completed my internship as an agent and in the process in obtaining my NQF4 qualification. I operate in a dynamic area! The North Coast of KwaZulu-Natal is one of the fastest developing areas in South Africa and the Richards Bay/Empangeni area being the country's second biggest harbour and largest coal export facility in the southern hemisphere, and this has stimulated rapid industrial and commercial expansion, and in turn created big urban development.

This growth in urban development has led to an increase in demand for affordable residential housing along the North Coast. My area is also the gem in the Tourism Crown of South Africa with pristine beaches which stretches from the Umlalazi River in the south to Kosi Bay in the north and include the World Heritage Site of iSimangaliso Wetland Park and the unique wildlife areas like Mkuze, Phinda, Temba, Ndumu, Hluhluwe/Umfolozu and Thanda Game Parks, as prime tourist destinations.

With my farm upbringing and being actively involvement in environmental organisation in the past, this has made me and my family great enthusiasts for the outdoors with wildlife photography our passion. That exclusive lodge you were looking for all these years or your export business that need premises close to a harbour – now's the time to act, I'm just a phone call away!
