

I am Darren Pollard

Hello I'm Darren! Family man, Yogi and nature lover.

I have been in the property industry for over ten years both in Cape Town and Johannesburg building up experience in residential, commercial and farm sales as well as new developments, finally finding my home here in Plettenberg Bay in 2016.

I enjoy meeting and working with a variety of interesting people and also have a keen interest in architecture, art and design. I love that Real Estate allows me the opportunity to work closely with people and being a part of their journey to finding their perfect property match.

After spending a few years in various parts of South Africa, my family and I decided on Plettenberg Bay as it truly is a magnificent part of the country offering a lifestyle second to none.

I am currently fine tuning my trade and working on achieving Gold Club status.

"Darren and Angela, you are such a professional team. And, I want to thank you for the unexpected things; namely, the tour of Natures Valley—including the village; but more, the pizza and Angela's reserving me the cushion on the picnic table bench.... Yes, there was so much to absorb and appreciate about Plateau. "

Susan
