

I am Martin Diedericks

I come from a wide and varied background, from a qualified baker, to a business owner, a property Developer, a Medical Representative (for 13 years) for a Pharmaceutical company, I also studied entymology and then finally decided to join Pam Golding as a property consultant in their Luxury Development Portfolio.

Coming from a property Development background, I decided that Pam Golding was the only property company I wanted to associate with because of their reputation and long, proven track record especially in the luxury segment of the market.
