

I am Earle Stark

Hi, I'm Earle Stark and I've joined the Pam Golding team in the Upper Highway area specializing in residential property sales. After completing my schooling in KZN, I spent 3 years in property sales in the 1980's before entering the construction materials market.

After completing my BBA Marketing (Hons), I oversaw the S&M function of the Gauteng operation in SA for Aveng Manufacturing and the Kwena-Infraset operation in Botswana. I was fully responsible for the formulation, implementation, management and control of the sales & marketing activities. During this period I gained valuable experience in people skills, and the judgement and integrity required in dealing with the diverse cultures and personalities across our extensive customer and staff base. I grew up in Durban with a father in real estate in the 1950's and 1960's; his commitment to service excellence and passion for property will forever inspire me. I look forward to my internship under the exceptional training support and leadership offered by Pam Golding Properties. I have a passion for working with people and building trusting relationships with my

clients as I believe this industry is more about people and not just about property.

Home is where the heart is; and after my extended time away from KZN, I look forward to offering my experience, expertise and focus in guiding my clients to the best decisions with their real estate investments.

Get in touch and let's discuss how I can help you with your property requirements.

My recently sold properties

**3 bedroom townhouse in
Waterfall (Upper Highway)**

R1,475,000

**5931 m² residential
vacant land in Forest Hills**
